01-Cancer in the Ascendant gives a pleasing appearance, of medium height, having a round face, a thick neck and plump buttocks. Amiable in disposition, soft in speech, a connoisseur of good food and fond of luxurious living. You have the admirable quality of feeling at home in almost every situation. You are a bundle of contradictions, greatly influenced by your planetary configurations. You are gentle, feminine in attribute, watery and have strength during the night and when "resting near a lake, pond, or sand bank." Materialistic in your approach to life, you are nevertheless capable of attaining great heights in spiritual practices. You may withdraw from the mainstream of life, actively pursuing your ethereal interests in seclusion, though outwardly you seem to be deeply engrossed in your earthly profession. You can rise to sublime heights or sink into gross materialism. However, you do not really enjoy any situation: you may easily capture the object of your desire, but sex alone will not satisfy you; you may possess material riches and luxuries but pine for something else; even spiritual attainments and realizations seem of no consequence. Either you long for the past or for that which is not yet in your possession. Your attitude toward life and the parameters of your emotions and thoughts are always changing-nothing can hold your attention for long. You always shine in reflected glory: you must hold onto someone higher, mightier, wealthier, more respected, and through whose support and patronage you can express your own qualities. In the absence of such an influence you seem forlorn, made of straw. Given the opportunity to explain abstruse philosophical thoughts, you can reel out poetry to express them beautifully. But if required to articulate your own independent ideas on any

subject you might fail miserably. As long as love and affection are bestowed on you, you will react with the greatest sincerity, but once that situation of warmth and recognition is withdrawn you become most miserable, just as if the life-force had been drained from you. It has been observed that emotional excitement, aggressive designs, and the pursuit of self-aggrandizement often lead a Cancer-born individual to destruction. Your greatest trouble comes from Saturn, the planet of restriction: whenever any situation arises which impedes your natural growth, you gets enmeshed in an inextricable tangle. Your marriage is seldom happy; you often surrenders yourself to your partner, either in emotional excitation or through some kind of infatuation, only to discover that your understanding of the situation was not realistic. Something done in a hurry, prohibited by society and performed to derive some mean favor, often becomes a stumbling block, causing life-long sorrow. Whatever happens in life, you are basically shy, unable to express your innermost feelings and thoughts, or to live a completely natural life. If you examine carefully several horoscopes of persons born in Cancer Ascendant you will invariably find that Jupiter in her Dasha has given rise to both good and bad results- bad in respect of debts, diseases and enemies. Though Jupiter may not cause Raja yoga in the strict sense, she has promoted the business and professional prospects involving you at the same time in misunderstandings, troubles, annoyances and ill-health. Cancer is in 1.

02-Leo in the Second House causes your disinterest in whether you have financial support or not; you never feel constrained in your activities due to restrictions. You embark on enterprises for which you may not have adequate resources, but in the end you will complete the program with admirable results. You earn your own money and hate to seek support from others. Your language is balanced, careful, and geared to some predetermined effect. Leo is in 2.

03-A gentle and studious nature is produced by Virgo in the Third house, though you may become quite angry when provoked. Generally speaking, you are respectful to elders, god-fearing, and inclined towards righteous living-though this attitude paradoxically creates many impediments in your life. Virgo is in 3.

better, more comfortable, more spiritual, and happier. The method may differ-you may devote yourself to sharing your spiritual understanding, you may choose to spread your message through music, or you may desire to destroy what you consider ugly and against the plan of God. Whatever method you adopt to cooperate with the spiritual forces which unfold the course of history -whether collective or individual- you yourself will be in tune with the life-essence or spiritual core of the world. This is the sign under which you may reach the highest level of spirituality and the acquisition of all possible perfections. Pisces is in 9.
